The first thing everyone says is, 'Did you smoke?' Yeah, I smoked, said Joosten. I smoked because Betty Davis said it was very glamorous. I smoked because it was seen everywhere and done everywhere. I got addicted because the tobacco companies add additives to their tobacco to make it more addictive. I'm damned mad at all of them. But that stigma has to go away. <http://edition.cnn.com/2009/SHOWBIZ/TV/09/14/kathryn.joosten.cancer/> BETTY Davis???? The world of entertainment reporting continues to devolve. I wish Kathryn Joosten all the best and hope she can beat this. MLW
